Nguyễn Minh Chí

Front Developer

CAREER OBJECTIVE

As a passionate Front-end Developer with 4 years of hands-on experience, I am to leverage my expertise in frontend technologies like React.js and Next.js, alongside backend integration to build scalable and high-performance web applications, clean code and great user experience. Always eager to contribute to innovative projects that require a deep understanding of both user interface design and server-side development, ensuring seamless user experiences and robust application performance. With ultimate goal is to grow into a tech leader who can design scalable solutions and

inspire innovation.

WORK EXPERIENCE

FREELANCER

Feb 2025 - Present

FRONTEND DEVELOPER
Delivered web solutions for SMEs and startups, balancing visual design, performance, and SEO best practices.
Selected Projects:

•Beauty'l (beautyl.com.au):
Developed a spa website with interactive booking flow, contact system, and responsive UI using Elementor, custom CSS/JS, and SEO plugins. Improved mobile usability and Google PageSpeed score to >90.
• Vano.vn:
Built and maintained a company profile site deployed on Linux. Implemented caching, CDN setup, and third-party integrations.
Customized and optimized WordPress themes from scratch.
Integrated plugins: Yoast SEO, WP Rocket, WooCommerce, and custom JS widgets.
Deployed and secured VPS environments using MobaXterm, Nginx.
Stack: WordPress, JavaScript, HTML/CSS, Bootstrap, SEO Tools
Impact: Improved client conversion and search visibility through mobile-first, SEO-optimized design

FINANTAGED

Jan 2023 - Feb 2025

FRONTEND DEVELOPER
Key frontend contributor in a cross-functional product team delivering high-performance financial web applications.
Key Responsibilities & Achievements:

•Developed dynamic user interfaces using React.js, Next.js, and SCSS, including a multi-step 90-day trading course, auth flows, admin dashboards, and news/blog systems.
•Integrated complex APIs via Axios and handled app state using Redux Toolkit and custom middleware.
•Focused on performance optimization: lazy loading, code splitting, Lighthouse tuning, improving UX and Core Web Vitals.

- Collaborated with backend and design teams to ship scalable and maintainable features.
- Occasionally implemented WordPress landing pages (e.g., Beauty'l spa website, Auvin e-commerce website) when needed for business requirements.🔗 https://beautyl.com.au

Tech stack: React.js, Next.js, SCSS, MySQL, GitLab, REST APIs

Impact: Delivered features at startup speed while maintaining enterprise-level code quality and performance standards

VANO JSC

May 2021 - Dec 2022

FRONTEND DEVELOPER

Joined VANO as a full-time Front-end Developer, where I contributed to multiple product lines including internal dashboards, company websites, and client projects. Despite the short tenure, I made high-impact contributions in both React/Next.js environments and CMS-based websites.

Key Contributions:

- Developed several internal tools and product UIs using React.js and Next.js, including real-time data displays and management interfaces.
- Collaborated with backend team working on Java Spring Boot, integrating REST APIs and ensuring seamless frontend-backend communication.
- Initiated modular UI architecture using reusable components, improving scalability and reducing code duplication.
- Took ownership of the company website vano.vn (built with WordPress), fully redesigning the UI to improve mobile usability and SEO readiness.
- Led Linux-based deployment setup and automated basic CI scripts for internal staging sites.

Tech stack: React.js, Next.js, Java Spring Boot, WordPress, Git, Linux

Impact: Delivered 3+ production-ready React modules in

TECHNICAL SKILLS

Frontend (Core)

- React.js, Next.js, JavaScript (ES6+), Tailwind CSS, SCSS, HTML5, CSS3
- Redux Toolkit, Context API, Axios, Responsive UI/UX

Backend & API

- Java Spring Boot (production use), Laravel/PHP (basic)
- RESTful API Integration

DevOps & Tools

- Git (GitHub, GitLab), Vercel, Linux Deployment
- CI/CD with GitLab, MobaXterm

Other (Supporting Tools)

- WordPress (custom themes, SEO plugins), Figma, SEO Optimization (Yoast, WP Rocket)
- MySQL, MongoDB, PostgreSQL, Prisma

EDUCATION

Sep 2015 - Jul 2021
